*There are a total of six iterations scheduled for New Managers, including three running across July - September. See program overview details below for more information.
**Dates TBC.

ANZSOG's Executive Leadership Programs offer strategic solutions to enhance senior leadership in the public sector.

Designed by leading experts, these programs focus on developing leadership practice, strategic thinking, and political astuteness tailored to public sector needs.

Learners gain practical tools and insights to navigate complex challenges, fostering organisational excellence. The collaborative environment also provides exclusive networking opportunities, allowing participants to connect with peers facing similar challenges, creating lasting professional support networks.

Deputies Leadership Program

This program provides a deep understanding of the Deputy role. Blending academic insight with real-world experience, it builds capabilities for navigating complexity, digital transformation, and policy delivery. Learners gain practical tools, peer networks, and a deeper understanding of leadership at the political-administrative interface.

Who is it for?

Designed for early-stage public sector Deputies with up to two years' experience, this program benefits those wishing to build their networks, learn about the expectations and responsibilities of their role, and explore how their leadership makes a difference.

NEW

Leading Exponential Change

This program equips leaders with the skills to drive systemic transformational change and lead through disruption in complex environments. Through an immersive residential experience combined with online modules, learners develop strategic foresight, improve judgment, and learn to create cultures of innovation – drawing on insights from experienced public sector professionals across jurisdictions. The program culminates in a Catalyst Action Plan to translate learning into real-world impact.

Who is it for?

Developed for senior public sector executives that need the future ready skills to drive transformational change within their organisations along with a resilient culture of innovation.

NEW

Strategic Leadership in the Public Sector

This program transforms experienced managers into forward-thinking leaders. Through weekly online sprints, learners gain strategic tools, explore innovation trends like pro-social AI, and apply leadership frameworks in real-world challenges. The program fosters self-awareness, cultural intelligence, and equips leaders to drive high-performing teams with clarity and purpose.

Who is it for?

Developed for mid-to-senior level public servants, this program is for those looking to develop their leadership approach and deliver greater strategic impact in their organisation.

Oct-Nov

\$19,600*

10 weeks

Blended

Application closing date TBC

Foundations of Public Leadership

This program empowers learners with the skills to lead confidently in complex environments. Through immersive learning, including peer-peer coaching, it builds self-awareness, critical management skills and a future focus. Learners return to work equipped with practical tools and a clear plan for elevating their impact.

Who is it for?

Created for middle and operational managers (new or experienced), the program supports learners in their current role, as well as those planning to transition to more senior leadership positions.

Mar - Apr | Sep

\$9,800*

3 weeks

Blended

Applications close 23 February 2026 (March program). Closing date for September program TBC.

*These prices are in Australian Dollars (AUD) and include 10% GST (unless otherwise stated), which will not be charged to New Zealand based participants.

ANZSOG’s Professional Learning Programs deliver premium quality, sector-specific development for public servants seeking to enhance their skills.

With access to world-leading experts and academics, these programs connect learners across different government areas. Designed with flexibility in mind, their short-format means they fit easily into busy schedules, allowing learners to build the specific capabilities required in today’s public sector.
